

Agenda | March 19-20, 2018

ATTUNE® Primary Instructional Course Nr.1

Johnson & Johnson Institute, Hamburg, Germany

Welcome to the Johnson & Johnson Institute

This interactive Instructional Course is a combination of presentations, group discussions and workshops focused on Primary Total Knee Arthroplasty. The expert faculty leading the course will guide participants through a series of sessions covering the key challenges faced in primary knee surgery, the science behind the ATTUNE Knee system, surgical techniques and their personal experience with ATTUNE. The sessions are complemented by two anatomic workshops which will allow the opportunity for those attending to use the ATTUNE instruments & discuss clinical tips and tricks with the faculty.

I hope you enjoy the course!

Yours sincerely,

Marc Remund, M.Sc.
